

GSO Negotiations – Update #2 – August 2021

The Guild Bargaining Committee and the federal treasury board met on July 14th to exchange contract proposals and commence bargaining. During the three days of negotiations, both sides engaged in significant discussions to try to better understand the rationale and reasoning for each respective proposal. Agreement was reached on several minor non-monetary administrative proposals to ensure that our next round of bargaining discussions will be focused on operational matters and monetary proposals. The bargaining proposals from both parties are posted on the Guild Website and can be reviewed by clicking the link below. We will continue to keep Members informed of developments in this important process.

Thomas Spindler
Chairman GSO Bargaining Committee
